PIERRE CARDIN Spring / Summer 2023 Collection

The spring / summer 2023 collection by Pierre Cardin is under the motto "Marais Bleu". Like no other brand Pierre Cardin manages to combine French style and excellent fits in one collection.

Set: the charming trendy Marais district of Paris with its eclectic mix of historical sites, art and culture.

Against this backdrop, Pierre Cardin presents an innovative collection full of lightness, natural materials and flowing silhouettes.

For the first delivery date in January, we walk over the cobblestone pavement in light down jackets, parkas or casual car coats. We combine harmonious layering of light knitwear, long-sleeved polo shirts, authentic jeans & chinos in heavier qualities. Muted earth tones, paired with the contrasting colours blue and offwhite dominate the colour palette.

As soon as spring is in the air and the street cafes fill up, the styles become more airy, brighter and full of anticipation of summer. Knitted polo shirts, buttonless styles, chinos from light grey to sugar brown convince with their clean refinement, which however looks well-groomed and dressed at all times.

A low-angle photograph of a man with dark hair, wearing a burnt orange or terracotta-colored jacket. He is reaching his right arm upwards towards a large, bright blue balloon. The background is a bright, overcast sky with the white structural beams of a building visible in the upper right corner. The overall mood is light and airy.

During the summer, airy resort shirts meet buttonless polos, super-light jackets as well as chinos and wide-cut double pleated trousers in long and short variants made of flowing and breathable fabrics such as cotton, linen and tencel. The focus in midsummer is on bright colours, from white to blue variants and burnt earth tones. The relaxed French lifestyle is perfectly translated into a collection full of flowing, wide, relaxed looks in a modern colour world.
